EVENT

THE UNBELIEVABLE TOUR in collaboration with Cylance

Montréal, Qc | May 16th, 2016 – The incredible tour was held on 11 May before thirty most interested guests. Indeed, Cylance undertook an exciting tour in 2015, in the United States and has planned this same tour in Montreal in collaboration with the Groupe Access team. This meeting confronted Cylance to the best providers of workplace protection and, before an audience. They have demonstrated publicly how they differ from anti-virus products and the most popular advanced security products on the market. A simulation of attack unbiased was presented to all and prizes have been distributed.

About GROUPE ACCESS

Groupe Access was founded in 1993 and has become one of the leading hardware, managed service and cloud services firms in Canada. Groupe Access provides end-to-end hardware, IT and business process services to clients across Canada.

About Cylance

At the core of Cylance's unprecedented malware identification capability is a revolutionary machine-learning research platform that harnesses the power of algorithmic science and artificial intelligence. It analyzes and classifies hundreds of thousands of characteristics per file, breaking them down to study their "DNA" in order to discern whether an object is "good" or "bad" in real time.
