Seagate launches new line of mobile drives

Montreal, Qc | August 29th, 2016 – Built to meet the demand for slim and fully featured laptop computing solutions, the Mobile HDD is available in massive 1TB and 2TB capacity options. It has an amazing 1TB-per-disk to deliver higher area density than the previous laptop HDD models.

Enjoy easy, hassle-free transitions from traditional, heavier 9.5mm designs to the latest, lightweight 7mm technology. The Mobile HDD is compatible with SATA 6Gb/s and SATA 3Gb/s designs and also offers SED options. Take advantage of a 2-year limited warranty with this reliable hard disk drive.

The Mobile HDD is ideal for

- Traditional laptops — from entry-level to high-performance systems
- Slim consumer electronics devices
- Convertible and detachable storage
- Helping to protect your sensitive data

Self-Encrypting Drive Options

- Seagate delivers on government-grade encryption without any performance degradation, to protect data where it lives — on your drive.
- Trusted Computing Group (TCG) Opal protocol
- The latest 7mm SED technology to ship with FIPS 140-2 validation
- On-the-fly encryption without performance degradation

- Instant Secure Erase technology enables fast and easy secure drive retirement

Seagate Delivers Innovation

For over 35 years, Seagate has demonstrated a passion for innovation, along with the ability to develop and distribute the storage solutions that end-users and customers need to create, share and preserve precious memories and critical business data.

Looking to update your laptop to a high-performance system?

You can contact a sales representative at Groupe Access by filling this form and it will be a pleasure to help you find the right solution!
